Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: claims 1-8 and 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The reason for allowance of claim 1 is the prior art of record fails to teach "the input pen further includes sequence input means enabling inputs of a series of pen pressure levels in an order of frequency of use; and the pen pressure information infrared transmission control means controls the infrared transmission means to change the infrared signal in accordance with frequency of use of individual pen pressure levels as sorted through the sequence input means. "

3. The reason for allowance of claim 3 is the prior art of record fails to teach "the input pen further includes sequence input means enabling inputs of a series of pen pressure levels as sorted by frequency of use; and the pen pressure information infrared transmission control means controls the infrared transmission means to transmit the infrared signal with pulse widths which grow longer in descending

sequence of frequency of use of individual pen pressure levels as sorted through the sequence input means.”

4. The reason for the allowance of claim 13 is the prior art of record fails to teach “establishing a series of pen pressure levels; ordering the pen pressure levels based on frequency of use; and associating each of the pen pressure levels with an infrared signal pulse width such that a more frequently used pen pressure level has a shorter pulse width than a pulse width of a less frequently used pen pressure.”

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
